
CORALIA
THE NEW LANDMARK OF
SANTO DOMINGO
NOVAL

Why Santo Domingo Este?

The greatest opportunities emerge when a select few see what's coming before everyone else. Today, more than US$500 million in public and private investment is transforming the area and reshaping the city's future.

The expansion of Santo Domingo's Malecón, major infrastructure improvements, stronger connectivity to the National District, proximity to the Columbus Lighthouse and Sans Souci Port, and continued tourism growth are shaping a new waterfront urban hub.

TODAY
Santo Domingo Este is emerging a new urban center.

Cities are not transformed simply by Building more

They are transformed when someone envisions a new center of gravity.

Coralia was born from that vision: the belief that Santo Domingo should not only continue to grow upward, but also expand into new areas of opportunity.

NOVAL

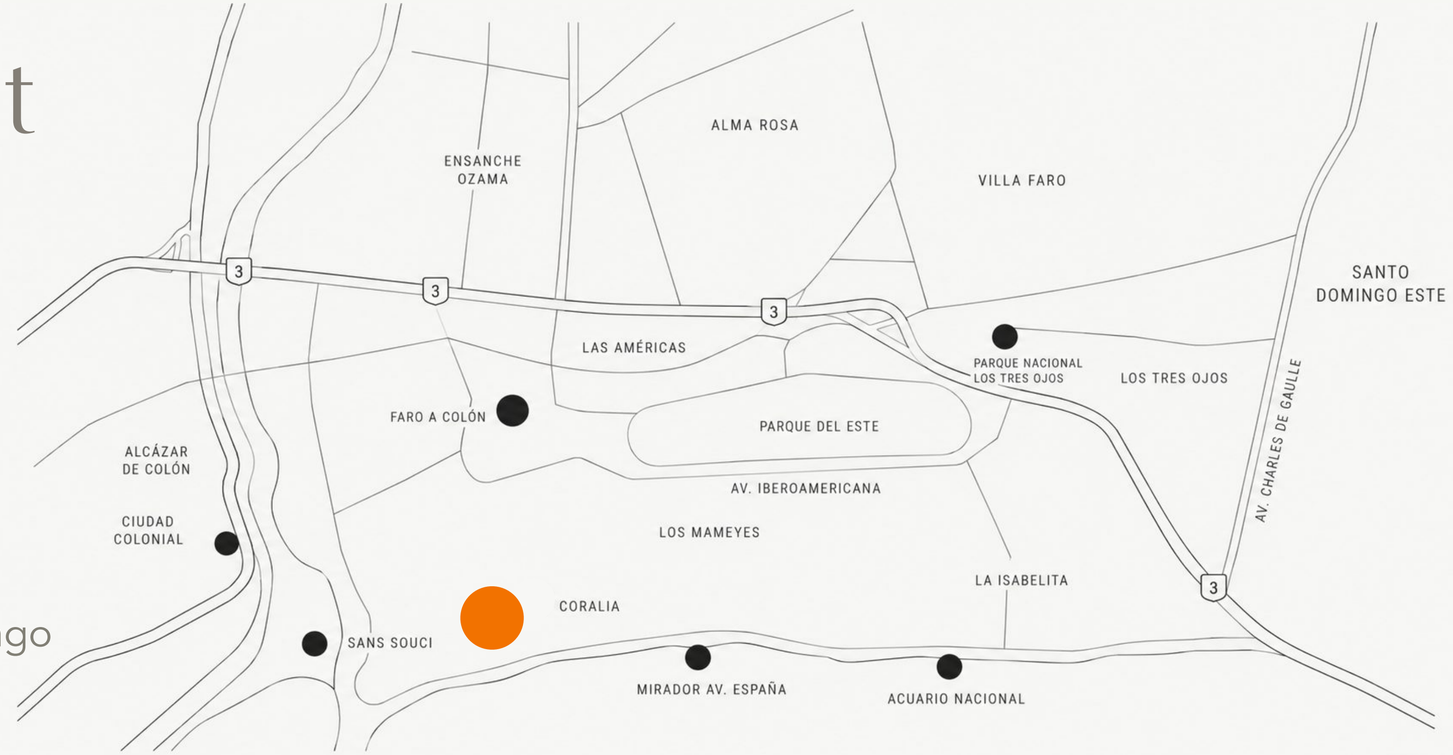

The development is located on Avenida España,

just minutes from the National District,

with direct access to Sans Souci Port,

the Columbus Lighthouse, and Santo Domingo

Este's expanding waterfront.

NOVAL

Architectural Vision

NOVAL

The Genesis of Coralia

This is How Coralia came to life

What began as an organic form shaped by nature evolved into a unique architectural vision.

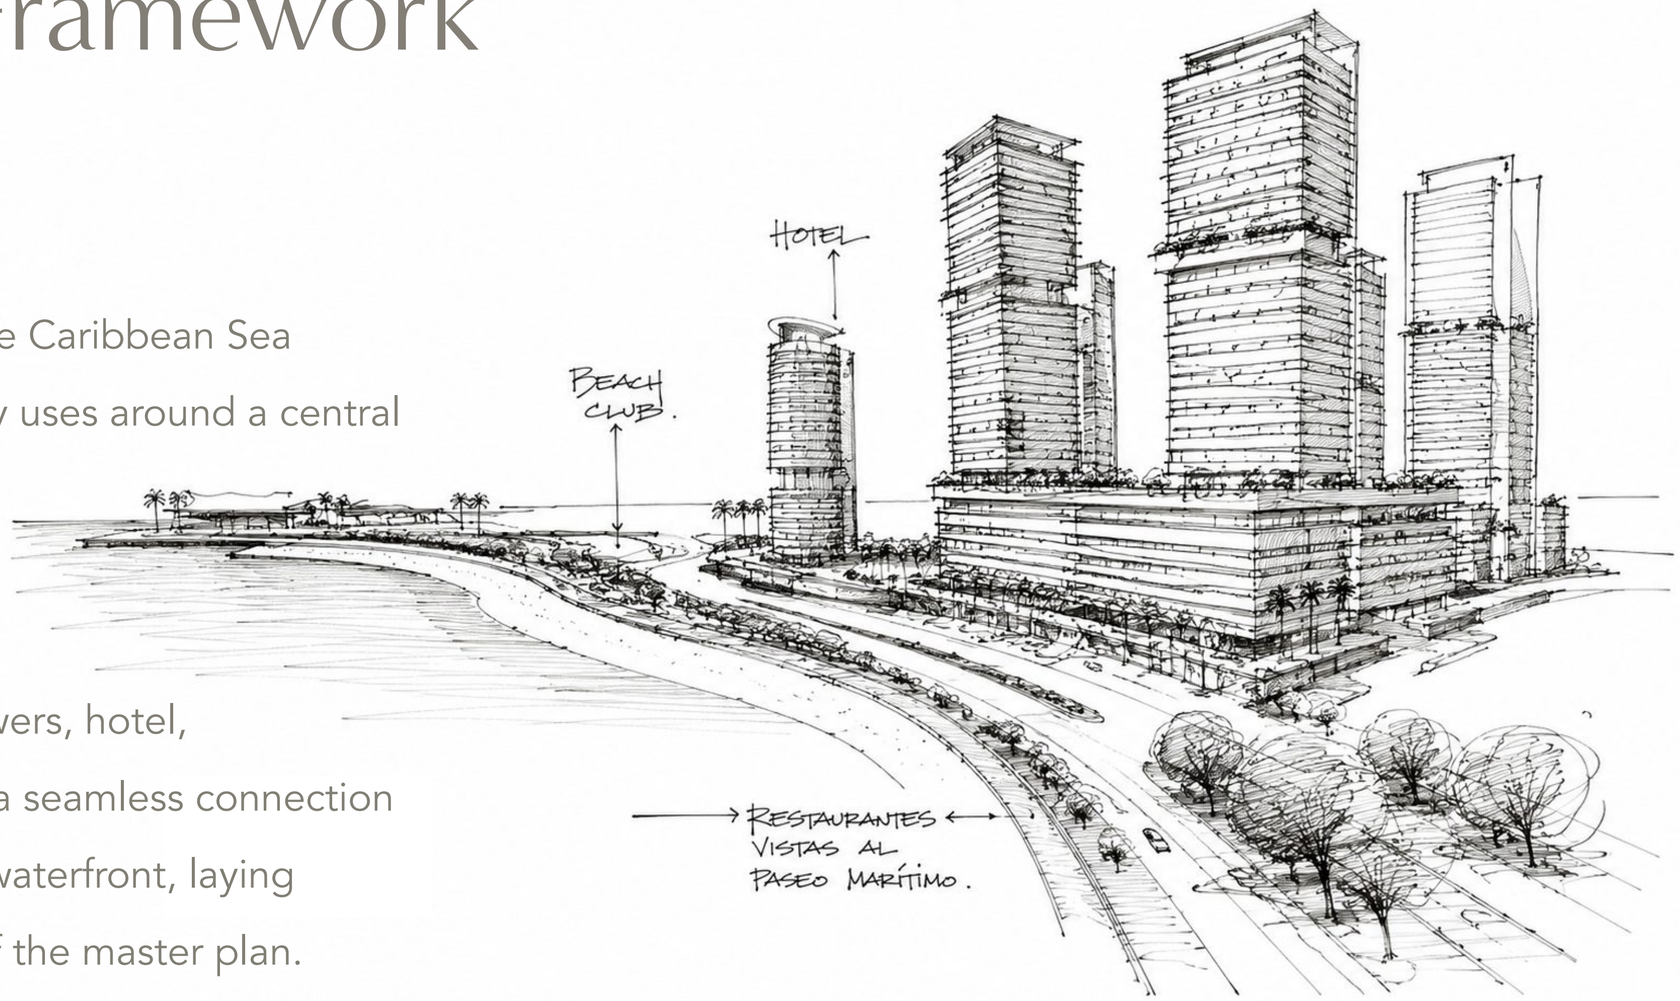

The lines, curves, and movement of coral inspired a new urban interpretation, giving rise to towers that rise organically toward the sky and engage in a dialogue with the sea.

Conceptual Framework

CITY, LANDMARK & EXPERIENCE

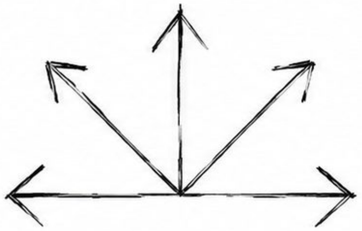

The concept prioritizes views of the Caribbean Sea and organizes the project's primary uses around a central gathering space.

The strategic placement of the towers, hotel, and supporting amenities creates a seamless connection between the city, landscape, and waterfront, laying the foundation for the evolution of the master plan.

NOVAL

Urban Vision

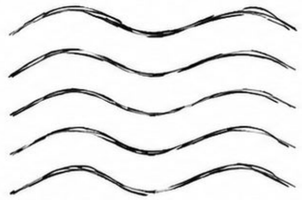

Views

Visual connection
to the sea and the city.

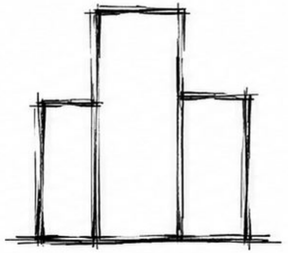

Social Hub

The heart of the development
And a gathering place
that brings people together.

Waterfront

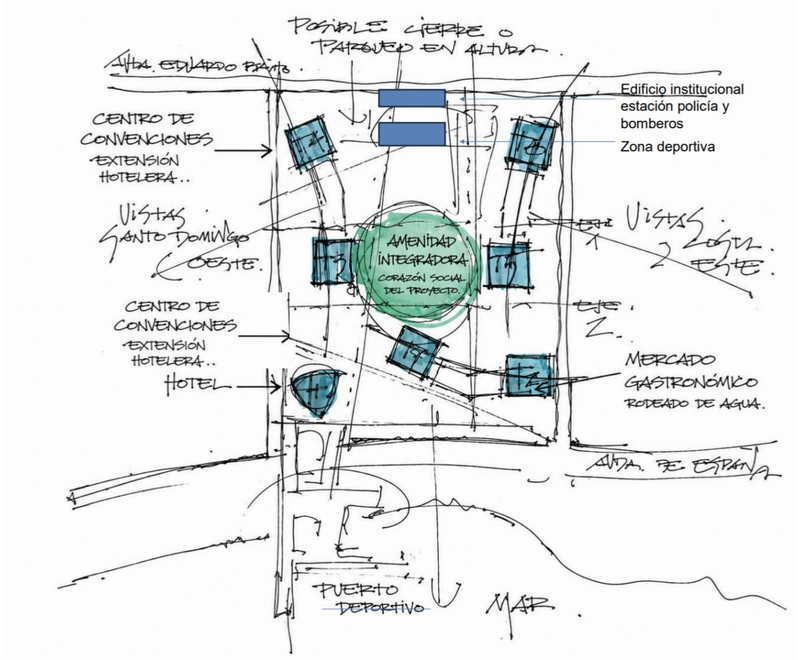

An active connection
to the Caribbean Sea.

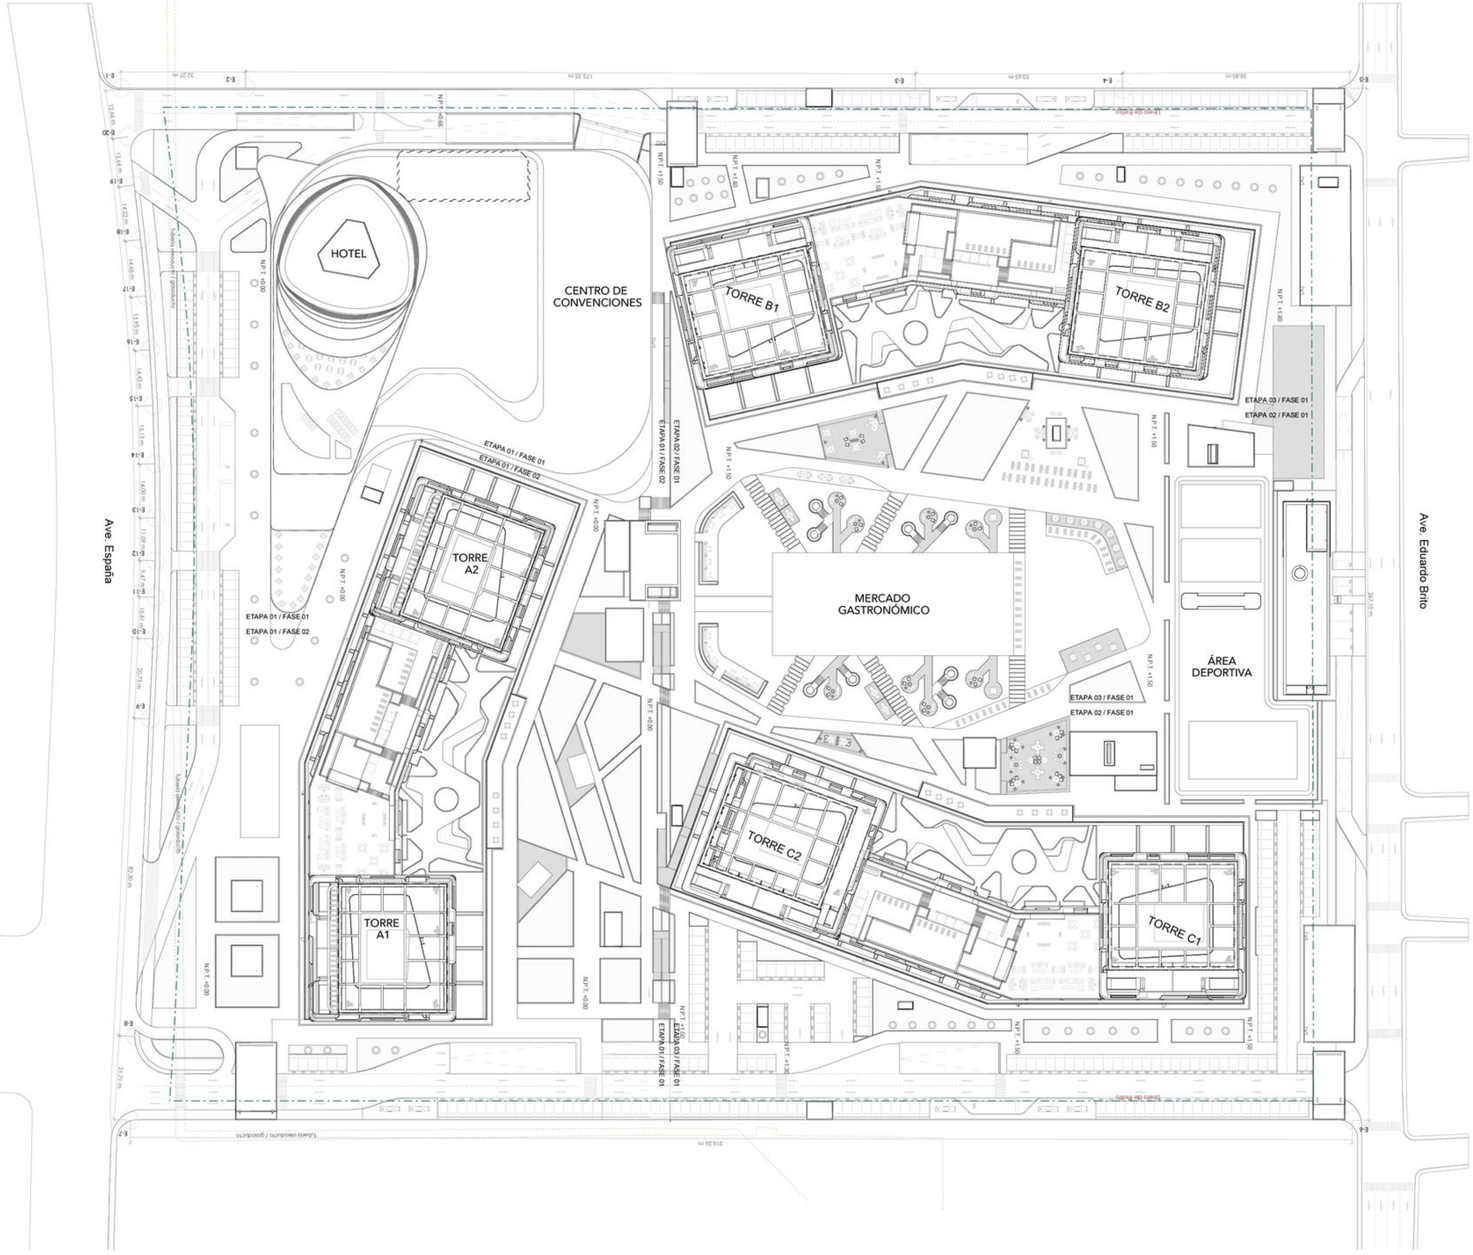

Urban Landmark

A distinctive identity and
a new point of
reference for the city.

Masterplan

Interior Design

NOVAL

Urban Elegance

CONCEPT

Coralia was born from the pursuit of a new standard—a place where elegance is expressed not through excess, but through the quality of its spaces and the richness of its materials. Its understated, refined interiors open onto sweeping ocean views, creating an experience that balances energy and tranquility.

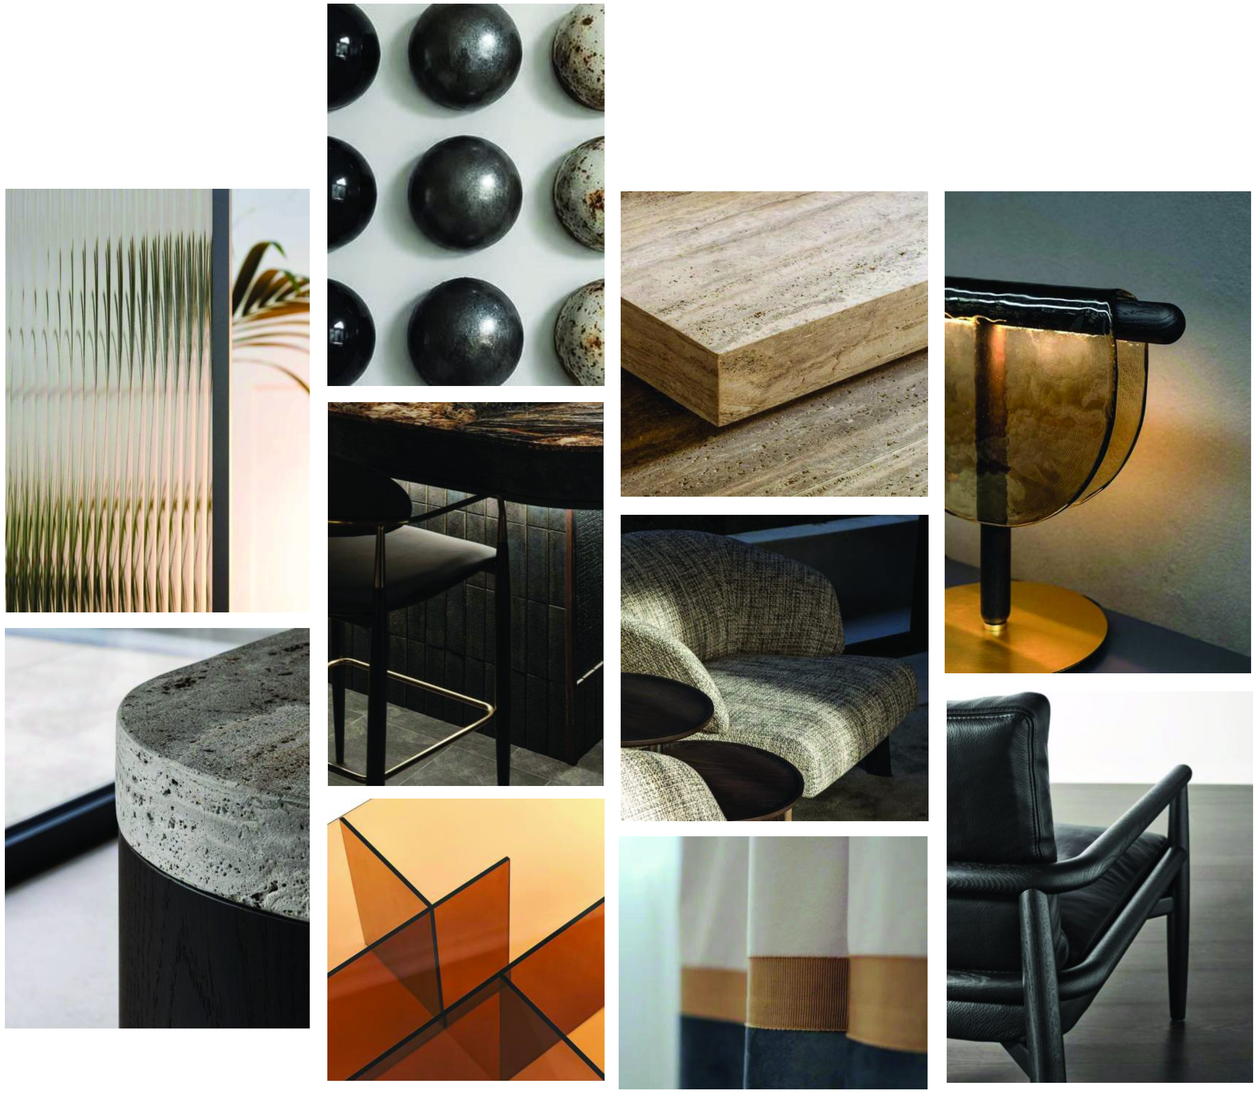

NOVAL

Textures Inspo

FURNITURE | FINISHES

A curated selection of natural stone, dark woods, warm metals, and textured glass brings depth, character, and timeless sophistication, creating elegant and welcoming spaces thoughtfully designed for an elevated residential experience.

Color Palette

FURNITURE | FINISHES

Coralia’s palette combines warm tones, deep accents, and refined textures to create an atmosphere of serene luxury and timeless sophistication.

NOVAL

Branded Residences

NOVAL

A Multi-Brand Residential Development

Coralia Santo Domingo was conceived to redefine luxury residential living in the Caribbean and establish a new benchmark for real estate development.

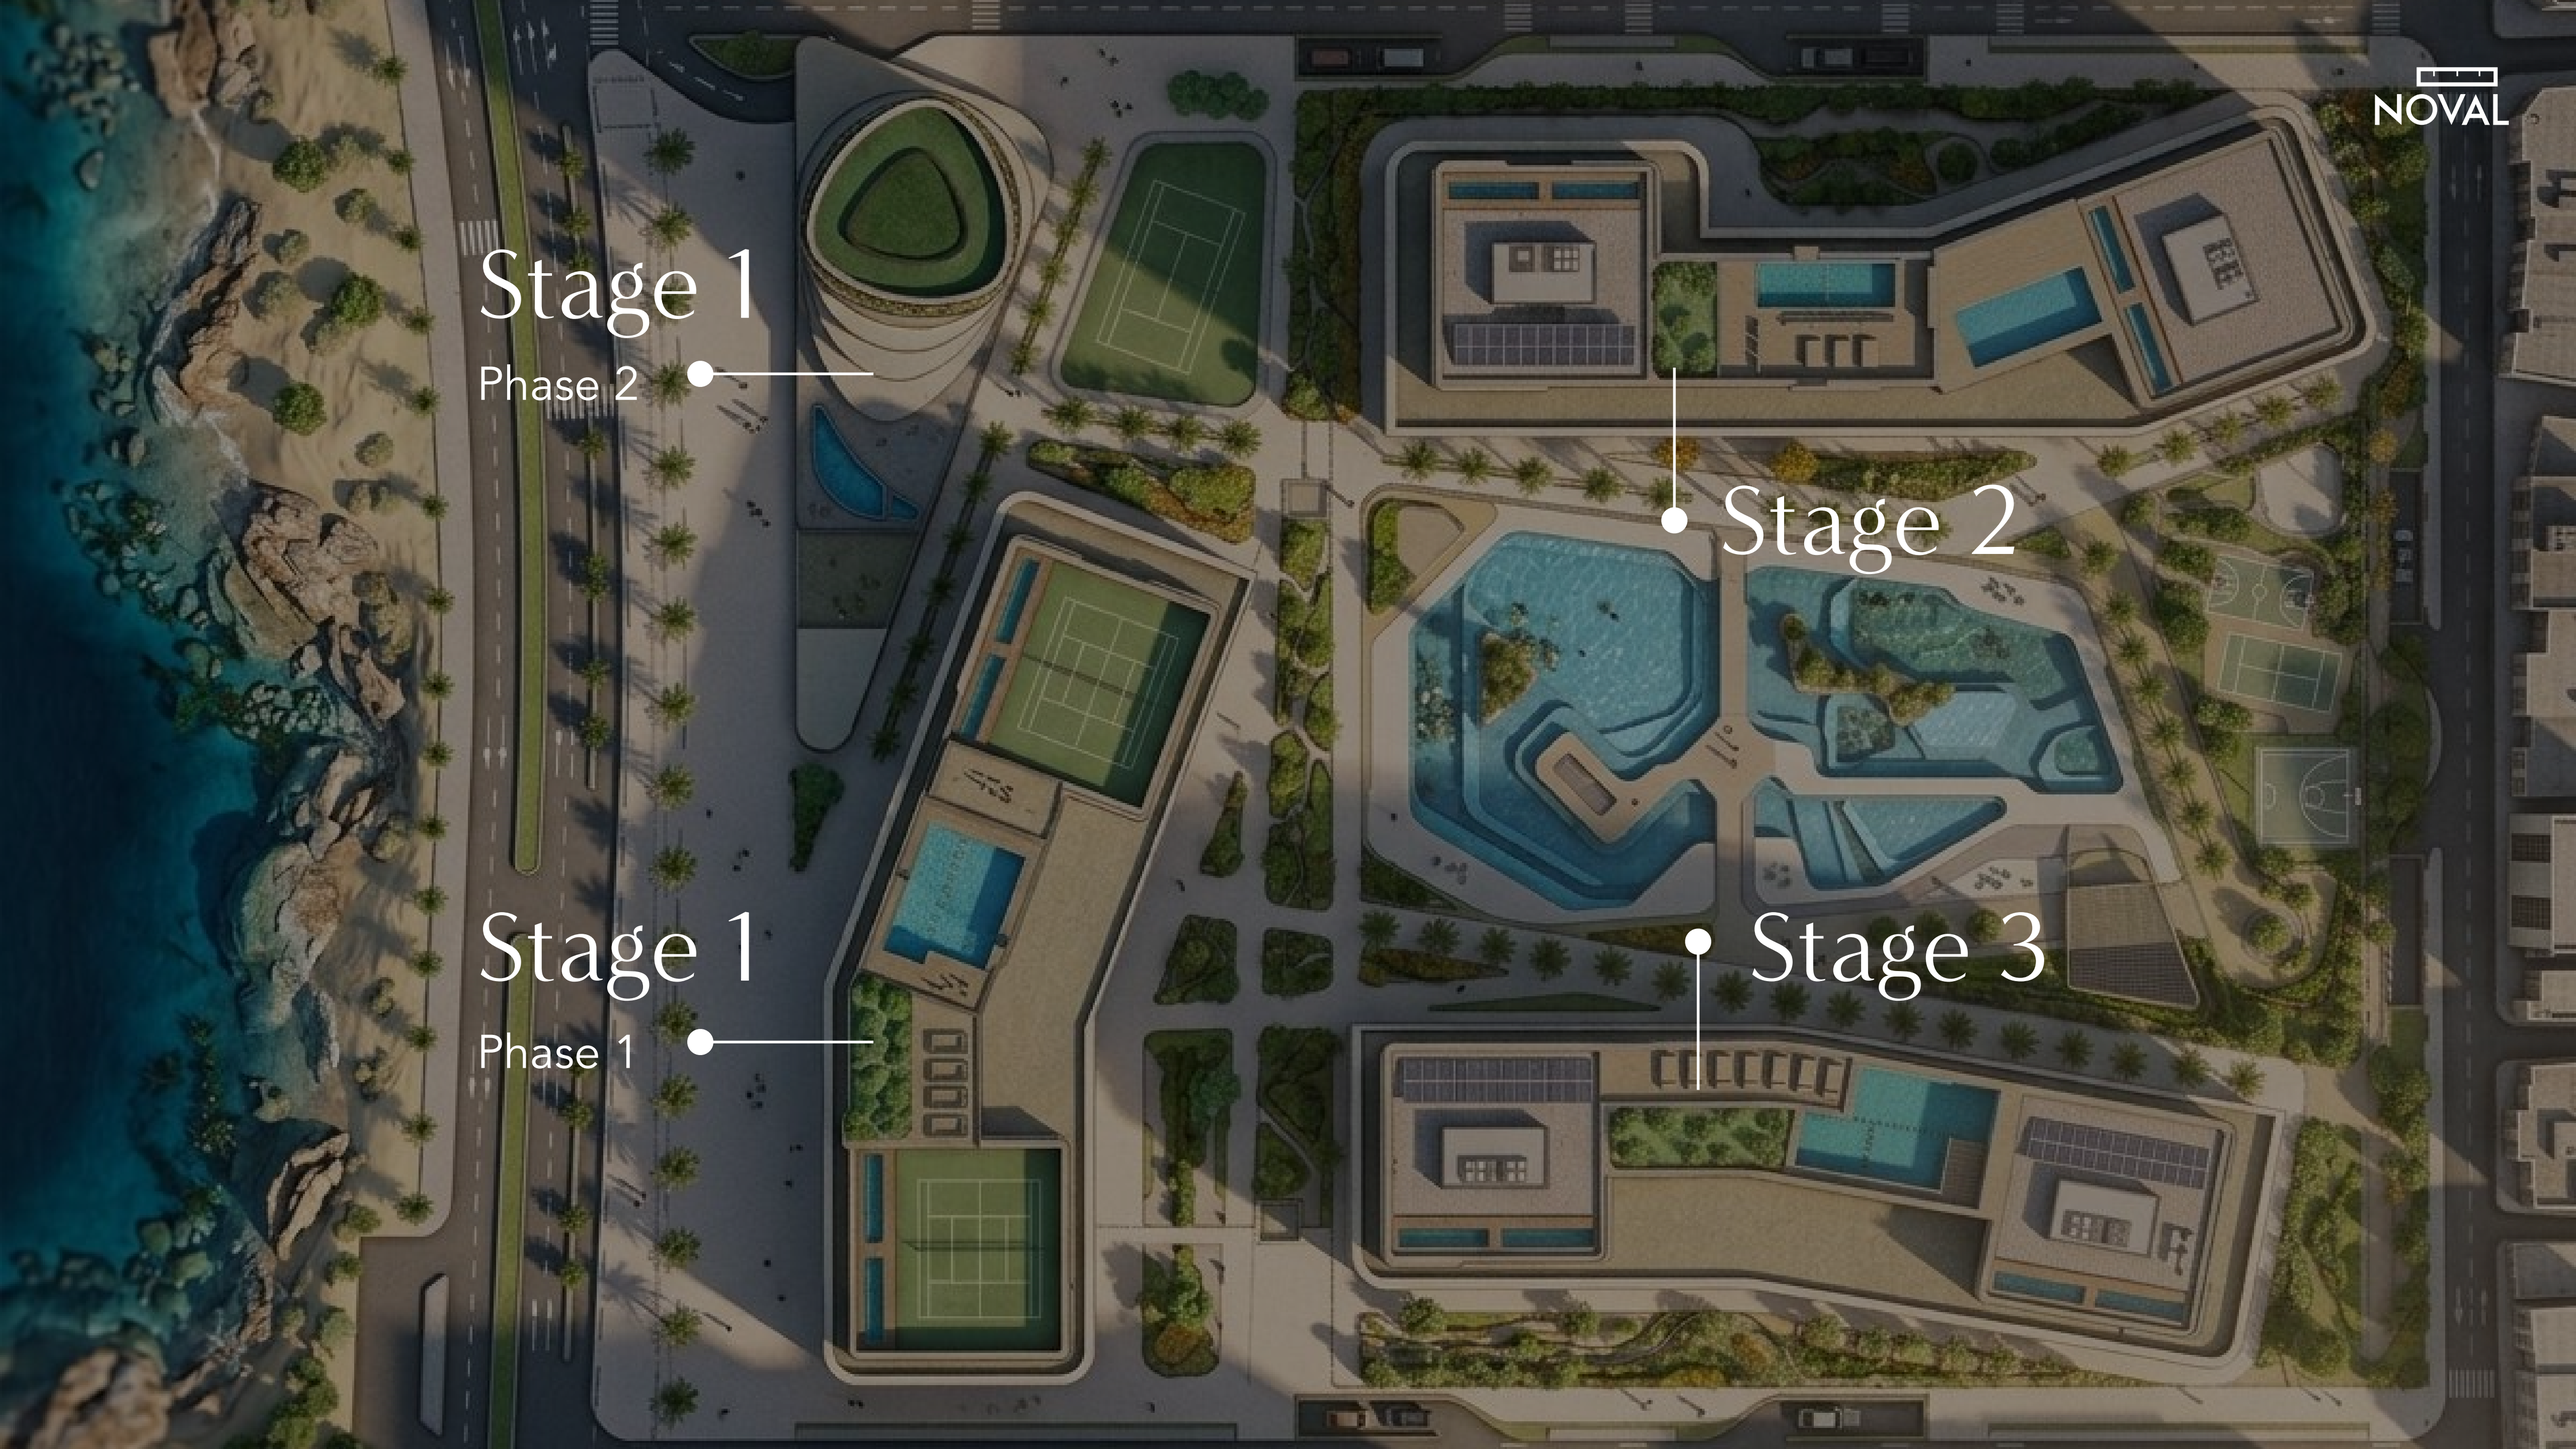

Each phase is envisioned to be associated with a renowned global brand, bringing together hospitality standards, exclusive services, and professional management to deliver a world-class residential experience.

The brands joining the development will be announced at a later stage, once all corresponding approvals and agreements have been finalized.

Construction Phases

The development will be delivered in phases to optimize resources, ensure efficient execution, and support the continuous evolution of the master plan.
